

OLSEN - Set QUALITY FLEX (Ref. 913)*Fabricat in Brazilia*

The Infinity Premium Cross Flex office offers a range of differentials, starting with the equipment, which comes with retractable rods and bold design, allowing use in the 12 o'clock position. In addition, it helps prevent repetitive strain injuries, assists in the durability of handpieces, facilitates mobility in the office and provides a lot of agility by allowing the replacement of drills while the practitioner remains active.
